

CAR PARKING INFORMATION

Coaches, please pass this information on to your parents.

As you may be aware, parking along the park lane that borders the course is somewhat limited. You might be well-advised to carpool.

Spectators will also be able to park on the opposite side of the park lake. The entrance to this area of parking is directly across Rt.61/309 from the entrance to the Galion Country Club (this is the area where buses have parked in the past).

A Galion school bus will circulate from one side of the lake to the other, carrying spectators from their cars to the course and back again throughout the day.

Again coaches, please make your parents aware that there will be parking on the opposite side of the park lake and that there will be transportation available to and from the course.
